

Cookie and Tracking Policy

Cookies, Device Identifiers, GPS, and Consent

Issued by: Aneeras LLP (hereinafter Aneeras or Company). Tripknot is a travel discovery mobile application (the Platform or the App) developed, owned, and operated by Aneeras. All legal obligations, liabilities, and rights described in these documents are those of Aneeras in its capacity as the developer and operator of the Tripknot Platform.

1. INTRODUCTION

This Cookie and Tracking Policy explains how Aneeras LLP, as the operator of the Tripknot Platform, uses cookies, device identifiers, SDKs, and similar tracking technologies. By using Tripknot, you consent to use of these technologies as described. You may withdraw consent at any time through the mechanisms below.

2. WHAT ARE COOKIES?

Cookies are small text files stored on your device when you visit a website or use an app. They help Aneeras recognize you on Tripknot, remember your preferences, analyze usage, and improve the Platform. Similar technologies — including IDFA and GAID device identifiers, SDKs embedded in the Tripknot mobile app, and pixel tags — work in analogous ways.

3. TYPES OF TRACKING TECHNOLOGIES USED ON TRIPKNOT

Type	Purpose
Strictly Necessary	Required for Tripknot to function: session tokens, login authentication, security cookies. Cannot be disabled.
Functional and Preference	Remember your choices on Tripknot: language, location settings, and display preferences.

Analytics and Performance	Anonymous data to understand how users interact with Tripknot and improve features. Example: Firebase Analytics.
Device Identifiers (Mobile)	IDFA on iOS and GAID on Android, collected with your consent for analytics and personalized content. Opt out via device settings.
Location Tracking (GPS)	Precise location data collected with your explicit consent for trip planning and nearby listing discovery on Tripknot. Revoke via device settings.

4. WHAT BASE 9 TECH DOES NOT DO

- Aneeras does not use advertising cookies or serve third-party ads on the Tripknot Platform
- Aneeras does not sell cookie data or tracking data to any third party
- Aneeras does not track Tripknot users across third-party websites for advertising purposes
- Aneeras does not use fingerprinting or covert tracking methods

5. HOW TO MANAGE YOUR PREFERENCES

5.1 In-App Controls

Manage your tracking preferences via Settings — Privacy Controls within the Tripknot App.

5.2 Device Settings — Mobile Identifiers

- iOS: Settings — Privacy and Security — Tracking — Disable Allow Apps to Request to Track
- Android: Settings — Privacy — Ads — Opt out of Ads Personalization

5.3 Browser Settings

For the Tripknot web platform, control cookies through your browser settings. Note that disabling strictly necessary cookies will prevent the Platform from functioning correctly.

6. CONSENT AND WITHDRAWAL

Aneeras requests your consent for non-essential tracking at first use of the Tripknot Platform. You may withdraw consent at any time without affecting prior processing. Withdrawal for certain tracking technologies may reduce personalized feature functionality on Tripknot.

7. UPDATES TO THIS POLICY

Aneeras may update this Cookie and Tracking Policy from time to time. Material changes will be communicated via the Tripknot Platform. Continued use after notification constitutes acceptance.

8. CONTACT
